

# Hunting Opportunities Still Available

We are growing very close to the start of our Pheasant and Sharp-Tail Grouse Seasons: **October 21<sup>st</sup> in South Dakota and October 7<sup>th</sup> in North Dakota.**

***Good News:*** You can still secure an opening to hunt with us.

***Recent news:*** The road surveys are out and initial counts are down. Please do not read too much into this and be aware that this is preliminary estimate. We always harvest more wild birds out in the actual field than the road counts would indicate. Due to the expansive amount of acres and quality habitat that we have available, the State count will have no effect on my properties. I can confidently predict that our success rates will continue to meet our high standards.

***Exciting News:*** I have acquired more leases for 2017. Providing our guests with even more top-quality habitat in both South Dakota and North Dakota.

I invite you to come experience the unique first class hunting we offer. You will have exclusive access to over 150,000 Acres of prime Pheasant hunting land in both Dakotas, thus we can assure you a quality pheasant hunt over diverse habitat. With this much property, it is literally impossible to "overhunt" any of it. Allowing our guests an ample and sporting chance to bag their limits each and every day.

We pride ourselves on showing our hunters a good old-fashioned pheasant hunt in the wide-open spaces...the way it is meant to be. Rest assured you will not be shooting tame-pen raised birds over small manicured plots. This is not a Preserve Shoot, but rather a true ***Fair Chase Pheasant Hunt***. You will pursue birds South Dakota style. Just the way we learned to having been born and raised right here in the very heart of Pheasant Country. An unforgettable experience that the true upland bird enthusiast will greatly appreciate.

The logo features the word "Dakota" in a large, elegant, brown cursive font. It is flanked by two horizontal lines that taper to points, with a small brown circle on each line. Below "Dakota" is the word "PHEASANT GUIDE" in a bold, brown, all-caps serif font.

# Dakota
