PUBLIC ROAD HUNTING

Hunting on Public Road Rights-of-Way, laws and rules governing trespass and motor vehicles are complex. The laws may be simplified if the hunter remembers to hunt only on foot during established seasons, to ask permission to enter private land and not to drive on state and federal lands. It is also advisable to restrict vehicular travel in wet weather when roads, trails, rangeland and cropland could be damaged and in dry conditions when fire danger is high.

ATTENTION DOG OWNERS: Hunters who hunt road right-of-way should understand they must maintain control of their hunting dogs at all times. Dog owners who allow their animals to remain on private property without landowner permission for the purpose of flushing game birds may be subject to trespassing charges. Dogs may be used in the unarmed retrieval of lawfully taken waterfowl and small game birds from private property.

However, under no circumstances may dogs be used to intentionally flush birds from private property to hunters in the road right-of-way. Road right-of-way, excluding the Interstate highway system, are open for the hunting of small game and waterfowl (see Mourning Dove, Youth Pheasant, and Resident-Only Pheasant seasons for special road hunting restrictions). Only the owner of the occupied dwelling, church, or schoolhouse; the owner of livestock; or a person who has written permission from the owner of the occupied dwelling, church, or schoolhouse, or the owner of the livestock may use such highways or rights-of-way for the purposes of discharging any firearm or for the purposes of hunting within a 660-foot

safety zone surrounding an occupied dwelling, a church, schoolhouse, or livestock. No other person may discharge a firearm at small game within the safety zone. The right-of-way along a section line or other highways are open for hunting if: The right-of-way have been commonly used by the public for vehicular travel, as demonstrated by the existence of a well-worn vehicle trail.

An intentional alteration or adaptation has been made to the right-of-way to enhance the natural terrain's utility for vehicular travel or to permit vehicular travel where it was not possible before.

NOTE: Fences are sometimes not on a right-of way boundary and sometimes there is no fence. Most section lines right-of-way are 66 feet wide. Some acquired right-of-way are wider.

- Hunters can take only small game (except mourning doves) and waterfowl within the right-of-way on foot. The hunter must be within the right-of-way and the game must originate from the road right-of-way or be flying over the right-of-way.
- The person must park or stop their vehicle as far to the right-hand side of the road as possible. See gfp.sd.gov for more information.

- If the person who discharges a firearm is less than 50 yards from the vehicle, all the doors of the vehicle must be closed, and the engine shall be turned off.
- Small game and waterfowl taken from the right-of-way but falling onto private property can be retrieved by unarmed hunters on foot. SEE our website for more information at gfp.sd.gov.
- No person may discharge a firearm, muzzleloader, crossbow or bow and arrow at any big game animal, except turkey to be taken with a shotgun using shot shells or with a bow and arrow, from within the right-of-way of an improved public highway.

PRIVATE LAND OPEN TO THE PUBLIC

Pheasant Hunting At Its BEST

The Aberdeen Pheasant Coalition (APC) was formed in 2014 to create, expand, and maintain land for pheasant habitat in Brown County of South Dakota.

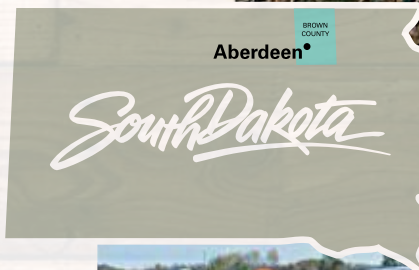

The coalition has currently secured more than 4,000+ acres of private land which is open to the public for pheasant hunting.

The APC could not achieve their vision without the generous support of several Aberdeen area businesses and organizations such as:

- Northern South Dakota Chapter of Pheasants Forever #77
- Sportsman's Club of Brown County
- South Dakota Conservation Fund
- Aberdeen Hotel Alliance
- Aberdeen Area Convention & Visitors Bureau

HOW TO REMOVE SKUNK SPRAY

**MIX: 1 quart of 3% hydrogen peroxide
1/4 cup of baking soda
2 teaspoons of dish soap**

Apply the solution to the entire coat and work it deeply into the fur. Leave on for 10 minutes. Rinse your pet thoroughly with lukewarm water. Smell your pet! If he still reeks of skunk, repeat steps 1-3! Pour any remaining solution down the drain with running water. NEVER store the solution in a closed bottle as pressure can build up and cause the container to explode.

Note: The solution will sting if it gets into your dog's eyes. If your dog's face is heavily soiled, use a toothbrush soaked in solution to clean the hair around the eyes.

The VanDover Family has been taking people hunting for over 60 years.

For the vast majority of those years, friends, family, and neighbors began gathering at the VanDover Farm starting opening weekend and doing weekend after weekend until the season closed. Faith and family have always been as important as their love for the outdoors.

One very interesting historical note is that the family home was once the missionary church where priests arrived by a combination of boat travel, train travel and horse travel to provide Sunday worship for the prairie.

Come join our family for a great time with your family and friends.

Hunting at Vandy's includes the following:

- Guides and dogs; may bring your own dog(s)
- Transportation to and from fields
- Access to private land
- Snacks and drinks during the hunt
- Cleaning of birds
- Evening meal at the conclusion of the day
- Morning breakfast with overnight lodging
